

Roomserve

Remote Controlled Motorised Roman Blind Headrails

A world of opportunities.....

Smooth, quiet and powerful tubular electric motor – capable of handling the heaviest of fabric/interlining/lining combinations

Neat compact motor and sensors, all contained within existing headrail. No hanging chains or electrical leads – Fully compliant with Child Safety requirements

Compact Lithium Battery Pack – an average 12 months from a single charge

Sit back and take control. Either individually or in groups from the comfort of your armchair Remote control, programmable timing, electronic limit setting and even the potential for home hub integration.
